EMERGENCY LANDING AT AIRPORT – Nick Bowen reports

When I arrived at the airport, there was a lot of activity around the plane. The passengers were all in the airport building, waiting to talk to the police. It was a very lucky escape. Some of them described what had happened.

Joshua Otobo, from Nigeria, said that everything (0) (*had*) / *has* gone dark and some people (1) *start* / *had started* screaming. Several people said that the pilot had told them (2) *keep calm* / *to keep calm*, and that they (3) *are* / *were* going to land safely.

Tom Strachan, a company director, (4) *told me* / *told* that he just (5) *feels* / *felt* happy to be safe and that he (6) *is* / *was* going home to (7) *his* / *my* wife and children to celebrate.

New York singer, Samantha Allen, said that the airport doctor had advised them all (8) *talk* / *to talk* to him about the experience, but added that she (9) *was* / *is* flying on to the US so she (10) *will* / *would* have to talk to someone there.
